If a protective order or other remedy is not obtained, or compliance with the provisions of this Agreement is waived, the Supplier shall furnish only that portion of Confidential Information that in its reasonable judgment is legally required, and that it will use its best efforts, at the expense of the Contractor seeking the protective order or other remedy, to obtain reliable assurance that confidential treatment will be accorded to that portion of Confidential Information that is being disclosed.

requires termination sooner. It is understood and acknowledged by Supplier that its termination of this Agreement in any manner other than as set forth herein shall cause Contractor to incur substantial damages as a result of having to replace Supplier and Supplier will be held liable for any such damages and the costs of replacement of Supplier which Contractor may incur as a result of any premature termination or breach of this Agreement by Supplier.

12. *Non-solicitation of Contractor's Customers*

The Supplier agrees that Supplier or their employees may not solicit Customer or any Customer agencies for Staff Augmentation or Statement of Work services that have been referred to Contractor by Customer and are intended to be released as a requirement under this Agreement. Supplier further agrees that it will not use any information regarding customers or Suppliers of Contractor which it may obtain during the course of this Agreement. The prohibitions contained herein shall continue for a period of one (1) year from the date of the termination of this Agreement, or upon termination of Contractor's contract with Customer, whichever is earlier. 19. Force Majeure

Each party hereto shall be excused from performance hereunder for any period and to the extent that it is prevented from performing any services pursuant hereto in whole or in part, as a result of delays caused by the other party or an act of God, flood, fire or explosion, war, invasion, act of terrorism, riot or other civil unrest, actions, embargoes or blockades in effect on or after the Effective Date, national or regional emergency, governmental ordered business closure, epidemic, pandemic or plague or other cause beyond its reasonable control and which it could not have prevented by reasonable precautions, including failures or fluctuations in electric power, heat, light, air conditioning or telecommunication equipment, and such nonperformance shall not be a default hereunder or a ground for termination hereof. Supplier's time of performance shall be enlarged, if and to the extent reasonably necessary, in the event that:

- (i) Customer fails to submit input data in the prescribed form or in accordance with the agreed upon schedules;
- (ii) Special request by Customer or any governmental agency authorized to regulate, supervise, or impact CAI's normal processing schedule;
- (iii) Customer fails to provide any equipment, software, premises or performance called for by this Agreement, and the same is necessary for Supplier's performance hereunder. Supplier will notify Customer and Contractor of the estimated impact on its processing schedule, if any. In the event Supplier is responsible for an error in processing Customer's data, Supplier promptly will correct such error.

20. Visas and Work Authorization

Supplier must ensure that employees have valid Visa Status and legal Work Authorization at all times while engaged under this Agreement. If an employee's Work Authorization expires, they must cease all work under this Agreement and Supplier must notify Contractor with as much notice as possible but not less than ten (10) workdays before work authorization expires. Any failure to maintain valid Work Authorization will result in removal of the employee and may result in the cancellation of this Agreement for breach.

21. Working Multiple Engagements

Supplier must disclose, at time of submittal to a requirement in the VMS, if the resource is actively engaged through another contract for other customer(s), and if the resource intends to work both engagements simultaneously. Both CAI Customer and the other customer(s) must provide written permission to allow dual engagements. Failure to acknowledge such a working relationship could be deemed a breach of this Agreement.

22. Completion of Assignment

The expectation is that a resource will complete the full term of their engagement and will not be pulled by the Supplier to work another assignment. In addition, the expectation is that a resource will complete the full term of their engagement under the Supplier that submitted them to the requirement in the VMS. If a resource wants to change Suppliers for reasons other than a breach of the Supplier, all parties (Customer, Supplier and new Supplier) will be notified.

23. Limitations on Supplier Layering

All candidates submitted by Supplier for consideration must have a W-2 or 1099 relationship with Supplier or be no more than one (1) layer removed. If instances of additional layering are discovered, Contractor will engage the candidate through the W-2 Supplier. All employer and/or contracting details must be reported accurately within the VMS.

24. Accurate Time Reporting

Each engaged resource must enter time into the VMS accurately and honestly. Failure to report time in an accurate, honest, and timely manner shall be considered a breach of this agreement and may result in disciplinary action, termination of the engagement, and/or termination of this Agreement.

25. Payment of Employees, Suppliers or Sub Consultants

Supplier is required to pay all of its employees, subcontractors, or agents for all work that the employee, subcontractor, or agent has satisfactorily completed no later than [ten (10)] business days after the Supplier has received payment from the Contractor. Should Supplier fail to make payment as set forth herein, Supplier shall be in breach of this Agreement., Contractor shall be entitled to engage the Supplier's employee, subcontractor, or agent directly or through another approved Supplier in the network and Supplier shall release any non-compete or non-solicitation agreement Supplier may have with its employee, subcontractor, or agent. Further in these circumstances, Customer or other supplier(s) may hire Supplier's employee, subcontractor, or agent directly as a full-time employee of Customer or other supplier without any further compensation being paid to Supplier and Supplier shall release any non-compete or non-solicitation it may have with the employee, subcontractor, or agent.

26. *Telework Policy*

Any allowance for Teleworking must follow the Customer policy. Failure to follow the Customer policy may result in disciplinary action or termination of the engagement.

27. *Customer Right to Hire*

If the Customer determines it is in its best interest to hire or convert the Contingent Worker of the Supplier to a state employee or to a state designated payroll provider, Supplier shall release Contingent Worker from any non-compete agreements that may be in effect at no cost to the Customer or Contingent Worker.

28. *Miscellaneous*

All of the terms and provisions of this Agreement shall be binding upon, inure to the benefit of, and be enforceable by, the parties hereto and their respective heirs, successors, legal representatives and permitted assigns.

If any of the provisions of this Agreement are ultimately deemed by a court of competent jurisdiction to be illegal, invalid or unenforceable, such provisions shall be deleted and the remaining terms and provisions of this Agreement shall continue in full force and effect.

This Agreement may be executed in several counterparts, all of which taken together shall constitute one single agreement between the parties hereto.

The section headings used herein are for reference and convenience only and shall not enter into the interpretation hereof.

If the party signing this Agreement is doing so as representative of either party, that person guarantees and represents that they have the express authority to bind their respective party.

Any signatures (including any electronic symbol or process attached to, or associated with, this Agreement and adopted by a Person with the intent to sign, authenticate or accept such Agreement) hereto or to any other certificate, agreement or document related to this transaction, and any contract formation or record-keeping through electronic means shall have the same legal validity and enforceability as a manually executed signature or use of a paper-based recordkeeping system to the fullest extent permitted by applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the Commonwealth of Pennsylvania Electronic Transactions Act, or any similar state law based on the Uniform Electronic Transactions Act, and the parties hereby waive any objection to the contrary.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed on the day and year first above written.

EXHIBIT B: Requisitioning Process

The following narrative describes the time and materials requisitioning process for the Contract, overseen by the contract's Managed Service Provider, Computer Aid, Inc. (CAI).

Step 1: Once the requirement is complete and approved, the CAI Contract Manager releases the requirement to the Vendor network via the web-based Vendor Management System (VMS).

Step 2: Vendor reviews the requirement. If the Vendor has resources who they feel fit the description of the need, they will submit their information and resumes through the VMS during the submittal window.

Step 3: The CAI Contract Manager monitors the online tool and receives submitted resumes from the Vendor network.

Step 4: The CAI Contract Manager reviews resumes and selects a group of resumes to present to the Customer Hiring Manager, based on skill and experience match and availability. The CAI Contract Manager then forwards the resume matches to the Customer Hiring Manager for review.

Step 5: The Customer Hiring Manager reviews the forwarded resumes and selects resources to interview.

Step 6: The Customer Hiring Manager then notifies the CAI Contract Manager of his or her selection to interview.

Step 7: The CAI Contract Manager notifies the selected Vendor/candidate and coordinates interviews with the Customer Hiring Manager.

Step 8: The Customer Hiring Manager interviews the candidate, either by webcam, phone or in-person.

Step 9: The Customer Hiring Manager selects a candidate and provides the CAI Contract Manager with complete engagement details, including specific information related to compliance, role, responsibilities, timing, and job location.

Step 10: The CAI Contract Manager receives the engagement information and reviews for accuracy. The CAI Contract Manager then notifies the Vendor Network that a candidate has been selected, and notifies the appropriate Vendor that their individual candidate was selected. The CAI Contract Manager also ensures that all applicable on-boarding tasks are completed.

Step 11: The Vendor of the selected candidate notifies the candidate of selection and provides all job details to the candidate. The Vendor also assists the candidate in completing all on-boarding activities.

Step 12: The CAI Contract Manager forwards final hire details to the Customer Hiring Manager and Vendor.

Step 13: The candidate begins work.

PRIVACY AND SECURITY REQUIREMENTS

For purposes of this agreement the following applies:

The term “Personal Data” shall mean any data, information or record that directly or indirectly identifies a natural person or relates to an identifiable natural person or is otherwise subject to any Privacy Law (as defined below), including, but not limited to, name, home address, telephone number, personal e-mail address, payment/credit card data, Social Security Number (SSN), Tax Identification Number (TIN), driver’s license number, national ID number, bank account data, passport number, combination of online username and password, medical and health-related information and any other Personally Identifiable Information that Supplier or any third party acting on Supplier’s behalf processes in connection with the services provided to Customer or Contractor by Supplier.

The term “Contractor Data” shall refer to any and all data that is owned or created by Contractor as it relates to Contractor’s finances, business operations, intellectual property, human resources, or its Customer.

The term “Customer Data” shall refer to any data belonging to Contractor’s Customer which would be classified in similar fashion to Contractor’s Data (e.g., customer finances, customer business operations, customer intellectual property, etc.). Contractor may be maintaining Customer data within Contractor’s infrastructure; however, this data is still to be defined as Customer Data.

The terms “Personal Data”, “Contractor Data” and “Customer Data” are collectively referred to as “Data”.

The term “Information Security Incident” means actual or suspected (i) loss or theft of Data; (ii) unauthorized use, disclosure, acquisition, transmission of or access to, or other unauthorized processing of Data that reasonably may compromise the privacy or confidentiality of the Data; or (iii) unauthorized access to or use of, inability to access, or malicious infection of, Supplier systems that reasonably may compromise the privacy or confidentiality of Data.

The terms “process,” “processing” or “processed” in relation to Data include, without limitation, receipt, collection, creation, recording, organization, storage, retrieval, consultation, use, manipulation, amendment, transmission, disclosure, discarding, destruction and/or erasure.

Supplier agrees, covenants and warrants to Contractor that at any and all times during which it processes Data, Supplier will:

- a) Take all appropriate and commercially reasonable measures, including, without limitation, the administrative, physical, technical (including electronic), and procedural safeguards set forth in the Data Privacy and Security Addendum, including but not limited to encryption that meets storage industry standards of data at rest and in transit, to protect the Data against any Information Security Incident. For information processed in electronic form, Supplier agrees that such safeguards must include, without limitation, electronic barriers (e.g., “firewalls” or similar barriers) and password-protected access to the Data. For information in written or other tangible form, Supplier agrees that such safeguards must include secured storage and secure destruction of the Data in accordance with applicable law and applicable privacy standards;
- b) Maintain or cause to be maintained a reasonable and commercially feasible information security program that complies with all applicable laws and is designed to reasonably ensure the security and confidentiality of all Data;
- c) Comply with all applicable laws and industry standards that relate in any way to the privacy, data protection, electronic storage, confidentiality, processing or security of Data and apply to Supplier or Contractor – including without limitation (i) state security breach notification laws; laws imposing minimum security requirements; laws requiring the secure disposal of records containing certain Data; and all other similar federal, state, local and international requirements; (ii) electronic storage industry standards concerning privacy, data protection, confidentiality or information security; and (iii) U.S. state data protection laws including, without limitation Massachusetts 201 CMR 17.00 – 17.05 Standards for the Protection of Personal Information of Residents of the Commonwealth and California Consumer Privacy Act (CCPA) of 2018 as of 1 January 2020 (collectively, “Privacy Laws”)
- d) Not transfer Data outside the United States of America for processing without the prior express written consent of Contractor;
- e) Not sell, share, or otherwise transfer or disclose any Data, to any other party, without prior express written consent from Contractor, except as specifically permitted under the Data Privacy and Security Addendum or required by law;
- f) Not use Data in any manner not specifically permitted under this Agreement without prior express written consent from Contractor;
- g) Not send or provide any marketing or promotional communications to Contractor or Customer employees or consumers without Contractor’s or Customer’s explicit written consent;
- h) Not aggregate or combine Data with any other data without prior express written consent from Contractor;
- i) Not subcontract any of its rights or obligations under this Data Privacy and security Addendum without the prior express written consent of Contractor. Where Supplier, with the consent of Contractor, subcontracts its obligations under this Data

Privacy and Security Addendum, it shall do so only by way of a written agreement with its subcontractor that imposes the same privacy and security obligations on the subcontractor. Whenever Supplier employs the services of third-party service providers to assist it in performing its obligations under this Data Privacy and Security Addendum, Supplier agrees that such service providers are capable of maintaining appropriate safeguards for Data and that Supplier has contractually obligated such service providers to maintain appropriate safeguards designed to comply with applicable law and applicable privacy standards. Where the subcontractor fails to fulfill its obligations under any sub-processing agreement, Supplier shall remain fully liable to Contractor for the fulfillment of its obligations under this Data Privacy and Security Addendum;

- j) Ensure that Data are only available to Supplier personnel who have a legitimate business need to access the Data, who are bound by legally enforceable confidentiality obligations, and who have received training in data protection law;
- k) Not retain Data any longer than is reasonably necessary, in accordance with Contractor record retention policies, to accomplish the intended purposes for which the Data was processed pursuant to this Data Privacy and Security Addendum. When Data is no longer necessary for the purposes set forth in the Data Privacy and Security Addendum, or promptly upon the expiration or termination of the Agreement, whichever is earlier, or at an earlier time as Contractor requests in writing, Supplier shall take reasonable steps to return, destroy (e.g., by secure shredding and/or digitally wiping), or arrange for the secure destruction of each and every original and copy in every media of all Data in Supplier's possession, custody or control. Promptly following any return or alternate action taken to comply with this paragraph, Supplier shall certify in writing to Contractor that such return or alternate action occurred, and the method used for such destruction. In the event that applicable law does not permit Supplier to comply with the delivery or destruction of the Data, Supplier warrants that it shall ensure the confidentiality of the Data and that it shall not use or disclose any Data at or after the termination or expiration of the Agreement;

- m) Monitor Supplier's information systems for unauthorized access and implement an incident response policy that specifies actions to be taken when Supplier detects or becomes aware of such unauthorized access to its information systems. Supplier shall provide a copy of such incident response policy to Contractor upon request;
- n) If requested by Contractor, within five business days from the date upon which the request was made by Contractor, either:
 - (i) update, correct or delete Data or modify the individual's choices with respect to the permitted use by Contractor of such Data; or
 - (ii) provide access to Contractor to enable it to perform the activities described in clause (i) itself;
- o) Immediately notify the Contractor Chief Compliance Officer if Supplier receives notice from any governmental or regulatory authority alleging that Contractor or Supplier has failed to comply with Privacy Laws in connection with the performance of this Agreement, or if Supplier otherwise becomes aware and reasonably believes that Supplier or Contractor may have failed or may in the future fail to comply with Privacy Laws in connection with the performance of this Agreement; and
- p) At Contractor's direction, cooperate and comply with any requests or instructions issued by any privacy or data protection authority, including any governmental or regulatory authority applicable to Contractor or Data.
- q) In the event of an Information Security Incident, such notice shall summarize in reasonable detail the nature of the Information Security Incident, the suspected data that is lost, stolen or compromised, if known, the parties which have or will be informed of the Information Security Incident, and the corrective action taken or to be taken by Supplier."

Supplier shall promptly notify Contractor in writing of any Information Security Incident of which Supplier becomes aware and of any request for access to any Data from any third person or any government official, including any data protection or law enforcement agency; and of any and all complaints or other communications received from any individual pertaining to Supplier's confidentiality policies or procedures applied to Data and/or the processing of either. In the event of an Information Security Incident, such notice shall summarize in reasonable detail the nature of the Information Security Incident, the suspected data that is lost, stolen or compromised, if known, and the corrective action taken or to be taken by Supplier. Supplier shall promptly take all necessary steps to robustly investigate and remediate, including, but not limited to, conducting a third-party forensic analysis. Supplier shall cooperate fully with Contractor in all reasonable and lawful efforts to prevent, mitigate or rectify such Information Security Incident or necessitate the disclosure of Data to a government official. All information relating to each Information Security Incident must be retained by Supplier until Contractor has specifically consented in writing to its destruction. If requested by Contractor and subject to Contractor's confidentiality obligations, Supplier shall permit Contractor and its agents to access Supplier's facilities and/or the affected hardware or software, as applicable, to conduct a forensic analysis of each such Information Security Incident.

In the event of an Information Security Incident, Supplier shall (i) promptly, after becoming aware of such Information Security Incident, notify the Contractor Security Officer by telephone, email and in writing at the address below of all known facts thereof, and (ii) at Contractor's option and at the direction of Contractor, whether or not required by applicable law, provide written notice to the

To the extent a State Attorney General or other governmental/judicial authority renders a fine, penalty or judgment, or requires an alternate remedy following an Information Security Incident, such as the provision of identity theft insurance, Supplier will offer and provide the required remedy at its own expense. Information Security Incident notifications shall be provided to:

Security Officer, Computer Aid, Inc., 1390 Ridgeview Dr., Allentown, PA 18104, USA; email: security@cai.io and by telephone at (610) 530- 5000

In addition, Supplier shall report all Information Security Incidents in accordance section 16. Obligations in the Event of a Breach and this Section of the Contract..
