

Neurodiverse Solutions

Your career path. Your way.

Finding a job you enjoy can be challenging. Especially if the traditional recruiting and interview process doesn't work for you.

CAI Neurodiverse Solutions provides career foundation and advancement opportunities for neurodivergent individuals. By removing the barriers of the traditional interview process, we help you showcase your talents, find a position that matches your skills, and become part of a team that will invest in your success.

Shine a light on your skills

CAI helps neurodivergent individuals identify and share their talents so they can start or expand their career.

What makes CAI different?

CAI provides the right support to help you identify your true potential and build or advance your career.

CAI's Talent Discovery Session replaces the traditional interview with an extensive, hands-on evaluation that allows you to showcase your talents in a supportive environment. After successful completion, candidates are eligible for an offer of employment.

CAI's neurodiversity-certified team leads help acclimate and support you in your new workplace. They provide leadership, guidance, mentorship, coaching, on-the-job training, and continuous professional development to ensure your long-term success.

Candidate Success Story

“I want people to know me as someone who does things the right way and someone who makes a difference. When I couldn’t find a job, I wasn’t sure how I would achieve those goals. With CAI, I am firmly in control of my own destiny.”

–Mark Mattson, Quality Assurance Analyst, CAI
